MKPL Architects Pte Ltd

Facilitator:

- Mr Laurence Liew
Chairman, SIA Awards Committee

Jury Citation:

COMPLETED PROJECTS

Winner: Changi Terminal 3

Architect: CPG Consultants Pte Ltd
– CPGairport

The project is a comprehensive case study of the use of Hunter Douglas's wide range of modular products to great effect. Several programmatic requirements took advantage of the innovations and adaptability of the products to meet design and technical requirements, like large panel design, acoustics and smoke control. The project demonstrated good versatility and design integration of the products in creating consistently high qualities in the architecture and spaces.

Merit: Yew Tee Shopping Centre

Architect: GreenhillLi Pte Ltd

The project demonstrated how a modular product, which offers the designer the advantages of buildability, productivity and therefore a sustainable design approach, could be intelligently and innovatively used in creating interesting architecture speaking of modernity and progressiveness, in both design sense and of construction.
